Review all instructions below to determine who is considered a parent on this form:
If your parent was never married and does not live with your other legal parent, answer "never married"
If your parent is widowed, answer "widowed". If your widowed parent is remarried as of today, answer the questions about that parent and your stepparent.
If your parent was married, but is now separated or divorced, answer "divorced / separated"
If your legal parents (biological or adoptive) are not married to each other and **live together**, select "Unmarried and both parents living together" regardless of their gender.
Do not include any person who is not married to your parent and who is not a legal or biological parent.
If your legal parents are married, select "Married or remarried."
If your legal parents are divorced but living together, select "Unmarried and both parents living together."
If your legal parents are separated but living together, select "Married or remarried," not "Divorced or separated."
If your parents are divorced or separated, answer the question about the parent you lived with more during the past 12 months. (If you did not live with one parent more than the other, give answers about the parent who provided more financial support during the past 12 months or during the most recent year that you actually received support from a parent.) **If this parent is remarried as of today, answer the question about that parent and your stepparent.**
